12A-SURFACE TREATMENT / CURING COMPOUND

WB-3 - Clear Water Based
WB-2M - Water Based White Pigmented
ASTM-C-309, BS-7542

12A.2-MASTERCURE WB-3, WB-2M

DESCRIPTION

MASTERCURE WB-3, WB-2M is a single component low viscosity wax emulsion which incorporates a special alkali reactive emulsion breaking system. It prevents water loss from concrete when it is applied overgreen concrete

FEATURES / ADVANTAGES

- Solar refractive
- Minimises risk of drying shrinkage cracks & dusty surfaces
- No risk of poor curing & ensures that cement hydrates efficiently
- Ensures achievement of desired strength

APPLICATION AREAS

- Industrial floor slabs
- Exterior pavements
- Wall & columns
- Parking & garages
- Terrazzo floors
- Warehouses
- Dry lean concrete.

COVERAGE

4-6 sq mtr / ltr depending on wind, humidity & temperature

PACKING

5 ltr., 20 ltr., 200 ltr.

SHELF LIFE

6 Months
